

# Products-Beware!

Products made from endangered species are pictured below. Match the product with one or more endangered species from which it is made.

1. American Crocodile

2. African Elephant

3. Black Rhinoceros

4. Coral

5. Hawksbill Sea Turtle

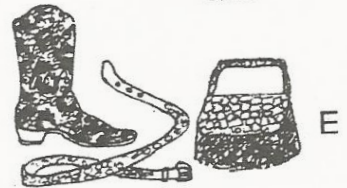

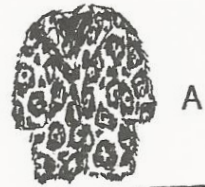

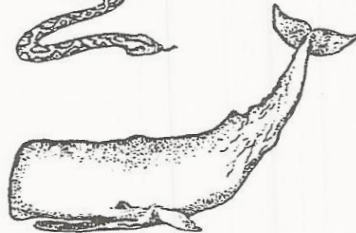

6. Jaguar

7. Python Snake

8. Sperm Whale

Laws and international treaties make it a crime for travelers to bring these products into our country. Every one of these products can now be produced without using endangered species. Products are replaceable. Endangered species are not.
