

Acacia tree

Giraffe
Giraffa

Africa has the largest Savanna habitat, but this habitat be found around the world; South America, India & Australia!

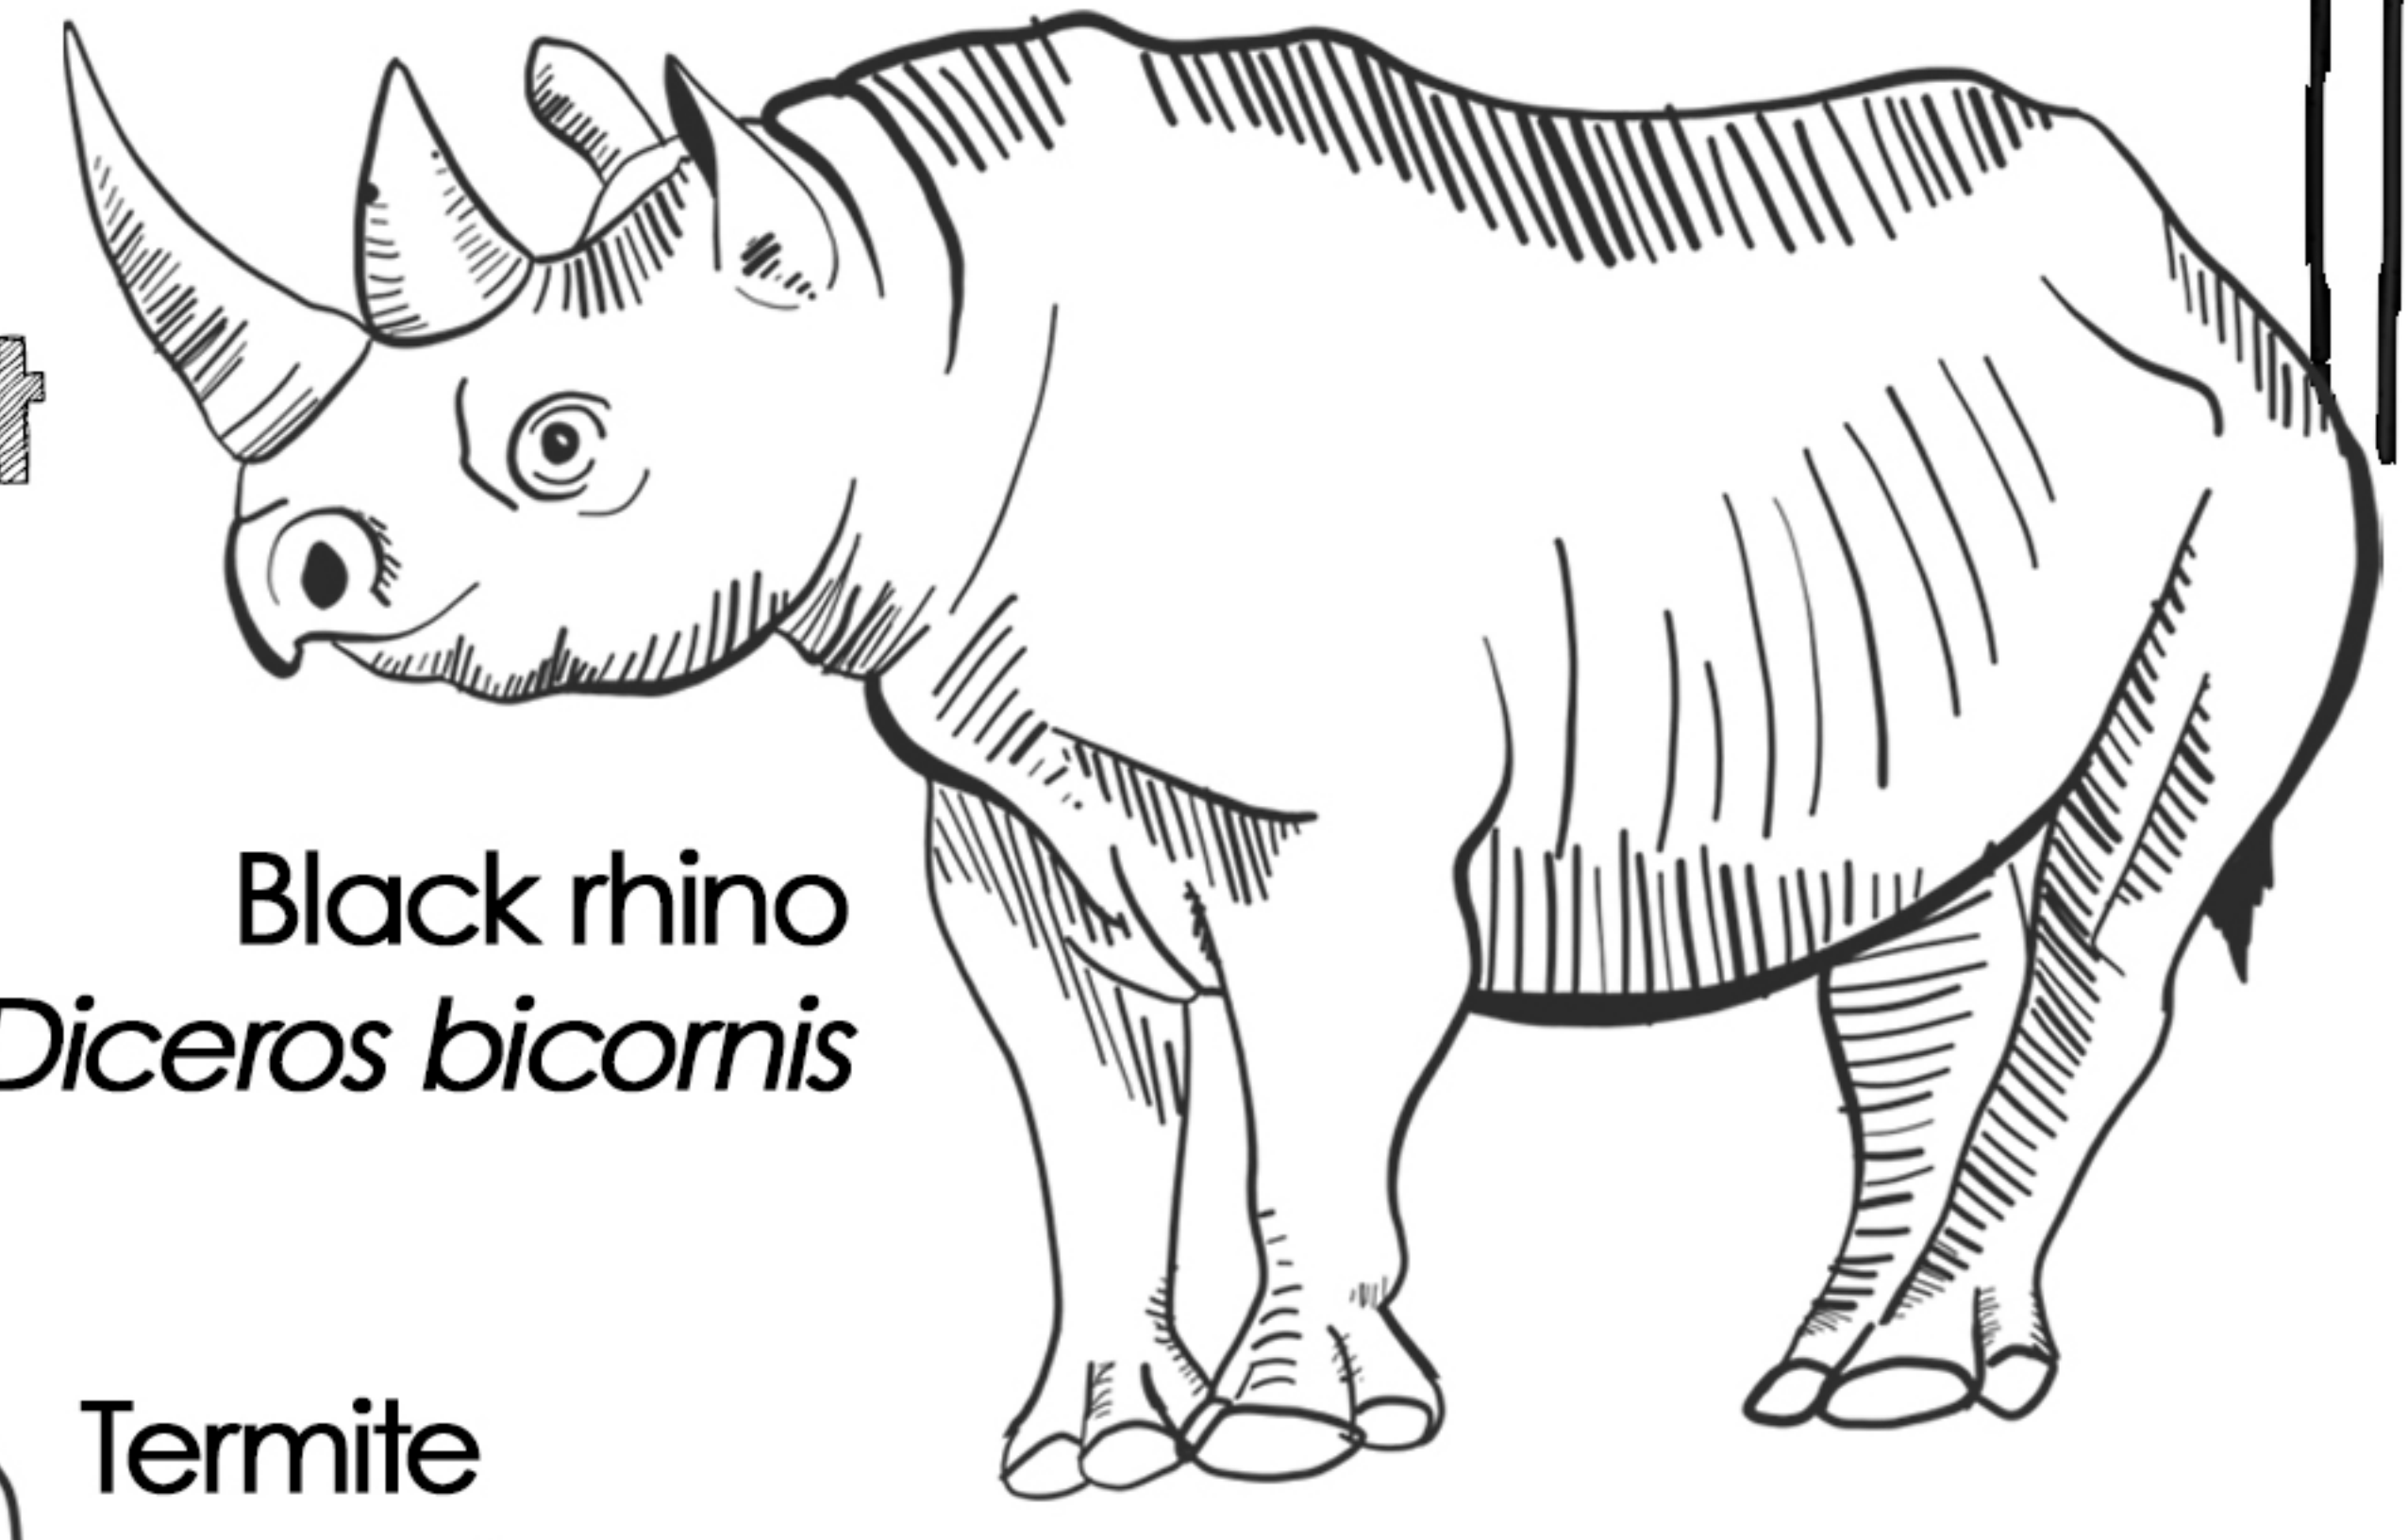

Hooded Vulture
Necrosyrtes monachus

Almost half of Africa contains the Savanna habitat!

Africa is home to many key stone species including elephants, lions, rhinos, & even termites, all of which shape the biodiverse ecosystem!

Habitat loss, human-wildlife conflict, hunting & wildlife trafficking all threaten the existence of some of the world's most iconic species!

Black rhino
Diceros bicornis

How you can help!

as a consumer, be aware of what you buy & where it's from

volunteer at a conservation minded facility

spread awareness

study in the field of wildlife conservation

Termite mound

Cheetah
Acinonyx jubatus
